

RANGES

Timeless or contemporary, airy or solid, each range may look different, but they all offer the same engineering excellence that guarantees a lifetime of real-world reliability. Choose a multi-headed Hydra water delivery system to complement the enclosure and complete the effect.

SHAPES

Choosing the right shape can make the most of your space. Quadrants and Pentagons optimise the shower space in the corner, whilst rectangulars and squares provide flexibility in providing your ideal showering location. Walk-in's give you the ultimate in stylish showering combined with ease of access where space is not at a premium. Also consider size; our large enclosures are the crowning glory of the bigger bathroom, while more compact units provide high quality in the smallest of spaces. Shapes and size do not need to be a constraint – let your desire for your very own space be given freedom of expression with our Bespoke service. And when there's no room for a separate door or enclosure, you can still have Daryl quality in the shape of our durable and stylish bath screens.

DOORS

You can feel the heritage in a Daryl enclosure door – no flimsy 'twang', just a satisfying 'thud'. The range of door configurations let you get in easily, no matter your room layout, but won't let the water out, no matter what you throw at it. Alternatively, if you seek a look and feel where entry and exit are unobstructed then consider the Walk-in's. All product that leaves the factory is hand-built and finished by skilled men and women, dedicated to ensuring the highest standards are maintained down the line.

GLASS

All our doors and screens use toughened glass to BS6206A. Every pane of glass we use passes through our own state of the art coating machine in controlled factory conditions. Coated glass enables ease of cleaning.

GUARANTEE

Each range is backed by the Daryl Lifetime Guarantee. Slam and impact tests ensure structural quality. We use the highest grade of aluminium alloy, anodised in our own factory, to ensure the consistency of finish and lifetime performance you demand. This gives us the confidence to offer a guarantee of real substance. Please visit daryl-showers.co.uk or call us for details of the Lifetime Guarantee.
